## Get the Best Hair of Your Life

What does it mean to have poor scalp health?

When the scalp is not properly cleansed and nourished, problems arise such as:

- ❖ Flaky & Itchy Scalp
- ❖ Hair Loss, Thinning, & Breakage
- ❖ Sensitive, Red, & Irritated Scalp

Scalp Health issues affect around

**85%** of men and **50%** of women

Factors that can play a role in poor scalp health

- Poor Eating Habits
- Stress
- Product Buildup
- Chemical Hair Damage
- Thermal Hair Damage
- Hormonal Imbalances
- Postpartum Changes
- Post-Surgery Nutrient Deficiencies
- Environmental Pollution

What is Keravive?

A Hydrafacial for the scalp! Keravive uses the innovative, non-invasive, patent suction vortex technology of Hydrafacial to deliver premium exfoliation, moisture, and nutrients to hair follicles— essential for natural hair growth over time. Treat any area of concern—or get a total scalp refresh!

Is it a one-time treatment?

**3X THE CHARM!**

Keravive achieves the best results when you receive 3 monthly treatments with daily use of our exclusive peptide take-home spray to boost treatment benefits.

keravive™

## How does Keravive work?

Keravive is a relaxing, painless approach to a healthy scalp promoting fuller, thicker hair

### STEP 1: PURIFY

Stimulates and opens hair follicles to exfoliate and clean away oil and debris

### STEP 2: NOURISH

Infuses cleansed follicles and surrounding skin with peptides, growth factors, and hydration

### STEP 3: BOOST

Supports natural hair growth at home with a daily peptide spray in between treatments

## Science-Backed Ingredients

Carefully chosen to help balance the scalp's microbiome- a complex environment of bacteria that contribute to scalp and hair health.

- ❖ Niacinamide
  - Provides protective properties against environmental stressors
- ❖ Keravive Peptide Complex
  - Our special blend of nursing peptides and growth factors supports fuller, healthier hair
- ❖ Vitamin B5 and Arginine
  - Helps replenish moisture to rejuvenate scalp and hair

### By Visit 3

- ✦ 75% saw improvements in hair fullness
- ✦ 70% reported improvements in overall appearance
- ✦ 82% saw shinier healthier hair

## Real, confidence-boosting results

You'll notice improvements in how your scalp and hair feel right away.

In studies, half of people receiving Keravive reported improvement in their hair fullness after just one treatment.

## Frequently Asked Questions

Is Keravive an invasive treatment? Does it hurt?

No, not at all. Keravive is non-invasive, relaxing, and rejuvenating treatment.

Can Keravive be paired with other treatments?

Yes! Your provider may recommend Keravive to complement other hair restoration or scalp health treatments.

Is Keravive designed for all scalp/hair types?

The Keravive treatment is designed for all scalp & hair styles, including braids, extensions, locks, dyed hair, and more.

How long does the treatment take?

Depending on your personalized treatment experience, your Keravive treatment can range from 30 minutes to 60 minutes.

What results can I expect and how soon?

You'll notice improvements in how your scalp and hair feels right away. And in studies, half of people receiving Keravive reported improvement in their hair fullness after just ONE treatment.

For best results, Keravive should be repeated, ideally 3 treatments over 3 months, with daily use of the take-home spray.
